LISTING OF CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A golf ball comprising an outer surface with a plurality of non-circular dimples, the dimples are formed by a plurality of lobes ~~extending from a central hub~~, wherein each lobe is defined by a curved outer segment and the curved outer segments form at least a portion of the perimeter of the dimple, wherein at least one radiating arm is located within each lobe.
2. (Original) The golf ball of claim 1, wherein the dimples are comprised of at least four lobes.
3. (Currently Amended) The golf ball of claim 1, wherein the ~~dimples are comprised of a plurality of~~ at least one radiating arms ~~emanating~~ emanates from a location proximate the center of the dimple.
4. (Original) The golf ball of claim 3, wherein each lobe is further defined by two radiating arms.
5. (Original) The golf ball of claim 4, wherein the radiating arms include truncated radiating arms.
6. (Canceled).
7. (Currently Amended) The golf ball of claim ~~[[6]]~~ 1, wherein ~~at least one radiating arm is located within each lobe~~ the lobes extend from a central hub.
8. (Currently Amended) The golf ball of claim ~~[[7]]~~ 1, wherein the at least one radiating arm extends to an apex point of the lobe.
9. (Currently Amended) The golf ball of claim ~~[[1]]~~ 7, wherein the central hub has a round profile.
